- ❖ HELPING AND SIDE INFORMATION IN TENDERING, ORDERS AND OTHER LIASONING WORKS TO PROMOTE YOUR ORGANIZATION.
- ❖ PROVIDING ISO IMPLIMENTATION TRAINING TO YOUR SYSTEM CORE TEAM.

SOMETHING ABOUT ISO

What is ISO?

ISO stands for 'SAME' in Greek. The International Organization issued the standard for Standardization, an international agency founded in 1946-47 in Geneva Switzerland, to promote the development of international standards and facilitate the exchange of goods and services worldwide. It is composed of member bodies from over 162 national standards bodies.

ISO first published its quality standards in 1987, revised them in 1994, ISO 9001 is required for companies that largely design as well as produce and distribute their products or services. ISO 9002 is meant for companies that produce and distribute their products or services. ISO 9003 is required for companies that carry out only final inspection and testing and then republished an updated version in year 2000. Standards presently applicable are known as "ISO 9001:2008 Standards" as its got revised with minor modifications and clarifications on 15th Nov. 2008. The purpose of ISO is to facilitate international trade by providing a single set of standards that people everywhere would recognize and respect.

What ISO 9001 is not?

- ❖ It is not a product standard.
- ❖ It is equally applicable to higher-grade as well lower grade products.
- ❖ One cannot claim the product/service to be ISO certified.
- ❖ It is only the organization that is certified.
- ❖ It does not solve the problems in the organization but helps in identifying them.
- ❖ The management still has to apply itself to solve the problems.
- ❖ ISO 9000 is not an end but mere a mean.
- ❖ An ISO certification is no guarantee that all products would be quality products.

ABOUT ISO 9001:2008 (QUALITY MANAGEMENT SYSTEM)

- ❖ Introduce itself as world class quality management system (QMS). Initially there were three standards (ISO 9001:1994, ISO 9002/9003) in ISO 9000 series, but now all ISO 9000 standards have been merged in single standard that is- ISO 9001:2008 (Revised version issued in year 15th Nov. 2008), Latest revised standard ISO 9001:2015 will be in market till December 2015.
- ❖ In simple manners we can say this is the base of all the standards. It is common & applicable for all type of industries (any kind of manufacturing & service industries).
- ❖ It is totally based on customer focus/satisfaction, continual improvement, leadership, involvement of people etc.
- ❖ It consists five major clauses, six mandatory procedures & based on eight management principals, Quality policy & many value added quality objectives & Records.
- ❖ We can say this is a complete error proof record management system which shows that the job was done well & within the time.

BENEFITS OF ISO CERTIFICATION & TRAINING

- ❖ **Improved overall planning & controlling.**
- ❖ **Improved customer related service.**
- ❖ **Improved productivity.**
- ❖ **Increased ability to tender for new contracts or new entries in large & govt. sectors.**
- ❖ **Integrity of system maintained by objective appraisal.**
- ❖ **Gaining a marketing advantage & share guaranteed.**
- ❖ **Reduction in customer's on site audits & many queries.**
- ❖ **Reduction in costs or extra/over burdens.**
- ❖ **Increase in exports (achievement of buyer's confidence.)**
- ❖ **Betterment in overall management system.**
- ❖ **Improvements in gray areas of the processes.**
- ❖ **Improvement in production or service processes.**
- ❖ **Betterment in management staff & their performances.**
- ❖ **Betterment in record management.**
- ❖ **Reduction in rejection/rework.**
- ❖ **Better working environment with better housekeeping.**
- ❖ **Team work (breaks departmental barriers)**
- ❖ **Create sense of ownership in the employees**
- ❖ **Better material/inventory/stores management systems on time deliveries to customers.**
- ❖ **Scientific/timely handling of the customer complaints & suggestions.**
- ❖ **Increased confidence within the organization.**
- ❖ **Betterment in in-house savings at all the levels**

OUR MODE OF OPERATION FOR PROVIDING SYSTEM CERTIFICATION
